Scope and Standards of Practice

Edition One was published December 4, 2015. AANLCP is responsible for developing and maintaining a scope and standard of practice for all nurses in life care planning. Application forms to participate in updating the scope and standards of practice will be sent to all members soon.

Research Committee

What research type questions are you asked in depositions? What is something about developing or using a nurse life care plan that you want to know? Think about questions you would like to see answered through research. We are still working on completing our surveys and hope to have them approved by the Institutional Review Board and sent out within the next 3-6 months.

Welcome to our new committee member, Jenn Craigmyle. Congratulations on recently earning your DNP, Jenn!
